MICROSOFT TECHNICAL

I was really apprehensive about taking a Boot Camp. I thought the pace would have been too fast and I would miss out on something. I was surprised, the pace was perfect and the instructor kept a nice flow.

Thanks,

MP

MCTS: SQL Server - Boot Camp

"THIS IS THE BEST CLASS I'VE EVER ATTENDED!"

Very well organized, very clear on the objectives. The instructor is excellent, both on his knowledge of the subject matter, and on the way he transmits that knowledge. I'm very glad I attended this class.

CG

MCDST: Microsoft Certified Desktop Support Technician

I just wanted to let you know that the group of students who attended, from [my company], were extremely pleased with the Microsoft Project Server training presented by NetCom. The instructor was knowledgeable and proficient in the subject matter, and was able to answer any questions that they had. Thank you very much. I will add NetCom to our list of preferred training providers.

KS

Microsoft Office Enterprise Project Management (EPM)

The class went well. The meals and snacks were a nice touch that made the course feel more polished than others I've attended.

[The instructor] was very knowledgeable, and included a lot of useful anecdotes about working with BizTalk. She covered a lot of material in a short amount of time, but it didn't feel rushed.

Thank you for an enjoyable training experience. –J

MCTS

I wanted to thank you for your help on signing me up to this course in such short notice. I really needed to bring my skill set up and this class provided me the means to get started. The course has been one of the best courses I've attended so far, the instructor really knows his trade. The staff did everything in their power to make this site a comfortable and adequate learning environment;

Sincerely,

GAJ

Microsoft Small Business Specialist

Just wanted to inform you that I have passed both of my A+ exams thanks to [the instructor's] help. Also, I have recently just been hired at a new job working in New York City as a support engineer for a private firm. Just wanted to let you know that you are a great teacher and keep up the good work! I plan to take my Network+ exam in a month or so.

BT

MCSE / MCSA

What I enjoyed most about my experience at NetCom was how helpful the teachers are. The instructor had the ability to apply the material to modern situations. My experience at NetCom has been challenging in a positive way. I will definitely go away much more knowledgeable.

AV

MCSE / MCSA

My experience at NetCom was truly a magnificent one. I have to thank all the staff for being so helpful and forthcoming to all my needs. This school is the perfect environment for someone who is serious for a career in the IT field. I believe the knowledge I gained in my MCSE, A+ classes will help fulfill my dream of landing a job in the IT department. I want to thank personally [my instructor] for being one of the most patient and knowledgeable teachers I ever had, the man is a source of knowledge, every night I didn't want the class to be over because he is just such a good teacher that you can't stop listening to him. I am planning to take more classes at NetCom and I will advise anyone I know to go to this school because it's affordable, the training is great and they worked with my work schedule and payment plan.

Again thank you NetCom!

The training was great and the group got a lot out of it. Once we go to MS 2007, we will invite you back for Word & Excel.

Thank you,

MT

Excel 2003
PowerPoint 2003

I was very pleased with the course. I thought that [my instructor] was an excellent instructor and her presentation skills were very evident. Her explanations were clear and she took ample time to go through the practice with me to ensure that I understood what I was doing. We'll continue to take advantage of NetCom classes at SM as we see fit.

Thanks again,

JP

I thought the class was GREAT! I look forward to taking more classes and certifications with NetCom.

Thank you for all your help!

MS

Word 2003

The online training was awesome and [the instructor] was fantastic. There were a lot of topics that were useful to my team and [the instructor] did a great job handling the different levels of experience between the attendees. Thank you!!

TJ

Excel 2003

Good morning:

My humble observations are:

1) Your staff is very courteous, helpful and dedicated. All your staff contributed to a refreshing customer focused, professional atmosphere and I will so advise people interested in taking a course with NetCom.

2) On the Storefront 1 course, your instructor was extremely patient and knowledgeable. She also was reflective of NetCom's professional, customer focused culture. NetCom's "refreshing" business culture is your edge ahead of US-type business cultures which are increasingly unprofessional, and generally not well-mannered. See you on the 3rd of August.

*Best Regards,
JBC
FrontPage*

Hi,

I just wanted to give you feedback about the class. I enjoyed it so much. I compared it to the other school and hands down it fulfilled everything I was hoping for. The instructor was excellent. He was chock full of information and he gave us information on stuff that was not even in the training manual. I was also impressed by the fact that he did not rush the class along. He allotted ample time for anyone who needed extra explanations. He also stated that he was willing to stay after class until the room was empty. I could not believe it. I immediately spoke to my supervisor and told her to recommend the school to the entire admin staff. Please send me a brochure and a course catalog. I can definitely assure you that I will be taking more classes after tax season.

Thank you so much.

CISCO

What a week! I acquired an amazing amount of information; I passed my CCNA with a 949 / 1000. The instructor was great and so was my overall experience at NetCom. I'll definitely be back for any further certification needs!

ROB

CCNA® and CCDA®: Combo Boot Camp

I wanted to say thank you to NetCom and my CCNA instructor for one of the best training experiences I've had since getting into the IT field. I took the CCNA test today at NetCom, and finished with about 15 min left. My score: 937. The instructor was right I got the OSPF lab on question 55, and after making a few comparisons to the routers that worked, and it became very obvious what was wrong.

I also wanted to thank the instructor for all the study materials he provided-without drilling on them each night I'm not sure I would've had the same outcome. Thanks again!

MF

CCNA®: Cisco Certified Network Associate [ICND]

I just completed two courses at NetCom, and had the pleasure of learning from one of the best technical instructors I've ever had. Both the CCNA and CCSA classes were taught skillfully by [Instructor], he really knows his stuff. I have taken technical courses at different training centers and have been disappointed by instructors with limited knowledge who don't know an answer unless it is written in the curriculum. [Instructor] was extremely knowledgeable, he was able to explain the material beyond the book and make difficult concepts easy to grasp. The facility was also great, it was really advantageous to have access to so many Cisco routers at once, and it helped to make the learning environment closer to real world situations.

JE

CCNA®: Cisco Certified Network Associate [ICND]

What I enjoyed most about my experience at NetCom was how helpful the teachers were. The instructor had the ability to apply the material to modern situations. My experience at NetCom has been challenging in a positive way. I will definitely go away much more knowledgeable.

AV

CCNA®: Cisco Certified Network Associate [ICND]

What I liked most about my experience at NetCom were the lessons and the clarity of the course. The instructor was knowledgeable and very clear on the course content. My overall experience was great; I look forward to taking more courses to enhance my training.

VL

CCNA®: Cisco Certified Network Associate [ICND]

I really enjoyed the CCSE class that you taught and I am very happy for the results and your willingness to be sure that we learned and practice every aspect of Check Point. You even went beyond your teaching itinerary and let us question you about CCSA misunderstandings and make clear to us point by point of Check Point. I will enjoy taking another class of Check Point with you because you are such a good teacher. I also appreciate what NetCom has given us throughout every class and made sure that we attended and did not miss any classes that will be very important in our lives.

WLM

CCNA®: Cisco Certified Network Associate [ICND]

I decided to study at NetCom Information Technology after visiting many schools and never regretted my decision. They have a good reputation and I got very good counseling on which courses to take. They were very candid with me. Now I have my A+ and Network+ certifications. Now I am getting my MCSE certification and want to train on Cisco. I might tackle Check Point too. My goal is to do something I enjoy and I've never enjoyed anything as much as IT.

KM

CCNA®: Cisco Certified Network Associate [ICND]

CCNA class is going great. [Instructor] is a really good instructor. Both Jamie and I are having a good time and learning a lot. This is by far the best instructor led training that I've had. The other places I've been to like Wave and New Horizons just don't compare.

DI

CCNA®: Cisco Certified Network Associate [ICND]

I enjoyed my classes at NetCom. The classes were small, so it felt like a one-on-one interaction. The instructor was always available when needed for questions. He was very professional and helpful.

RC

CCNA®: Cisco Certified Network Associate [ICND]

College? It may be too long!! In fact, by the time you get out, you'll be outdated. I have decided then to join NetCom Information Technology, probably one of the best computer schools in town, and thanks to professors like [Instructor] I have found what I was looking for "making web pages." I don't intend to stop here. In fact I'm taking MCSE class now. Thanks NetCom Information Technology for showing me the way to success.

FC

CCNA®: Cisco Certified Network Associate [ICND]

OUTSTANDING! [The Instructor's] additional materials were exceptional.

I just wanted to thank you for being such an outstanding instructor who obviously has the best interest of the students in mind. I really enjoyed your course and more enjoyed your teaching style.

Thank you so very much for all the 'extras' that you have done to personalize the course like the supplemental manual and the emails.

This really means a great deal to me (and of course to my professional development).

KK

Project Management
Professional (PMP)
Certification Preparation

Love the PMP Workbook (customized handout) and the attachments [the instructor] provided.

[The Instructor] is fantastic - Energetic, knowledgeable, & passionate.

CG

**Project Management Professional (PMP)
Certification Preparation**

[The Instructor] is engaging and knowledgeable. I found the course to be insightful, informative and entertaining. I commend [the instructor] in his style and delivery of the materials. I enjoyed the past 5 days immensely.

I came away from this class with an abundance of new knowledge. Thank you!

KS

**Project Management Professional (PMP)
Certification Preparation**

[The Instructor] is tremendously skilled at teaching!

Great materials!

SE

**Project Management Professional (PMP)
Certification Preparation**

Hi NetCom,

I never filled out the feedback form at the end of the class, but I wanted to let you know that PMP Instructor is a phenomenal teacher. Very thorough, enthusiastic, experienced from the real world and happy to spend extra time with students on breaks or at the end of the day. I enjoyed this week very much and learned a lot.

Thanks to [instructor], I'm confident I'll pass the PMP on the first try and be able to apply some of these new skills on my projects.

Thank you,

H-C. T.

PMP Certification Preparation

SUN

To be frank I was very nervous about the training the first day given my bad experiences with other training schools but I have really enjoyed every bit of it. I have already told lot of my friends about NetCom.

Thanks for the wonderful class!

Anand

SCSA / Solaris 10

*Good morning!
The collective feedback from the engineers that attended the class - We all thought very highly of [Instructor] - he is a really smart guy. Class went very well!*

Thanks!

Bryan

SCSA / Solaris 10 Boot Camp

CompTIA

Well I have in fact passed both of the Certifications and am now A+ and Net+ Certified. [Instructor] is an extremely knowledgeable above par teacher, and I had a great time in his class. Thanks for all your help also, without your initial push I probably would not have committed to a 7 day 10 hours a day boot camp. But after this boot camp, I am in fact looking forward to possibly coming back for a different certification and do it in a boot camp style. I just do not know when that will come around but I am hoping for it to be sooner than later. Thanks once again. I appreciate your help.

MK

A+ and Network+ Combo Boot Camp

For a fast paced class it was pretty relaxed. The instructor made the class enjoyable.

J. D. P.

A+ and Network+ Combo Boot Camp

I must say that the Network+ course has met my expectations. The atmosphere was very relaxing and the Instructor was very knowledgeable about the subject matter. The consultants help and advice was also great and I appreciate that very much. I have mentioned my experience with NetCom to my boss and others at the [Company]. Our IS dept is about 160 people and I will certainly share my experience with others.

Thank You

SR

Network+ Certification

What I liked most about my experience at NetCom was the knowledge gained. The instructor was very experienced; he had the ability to communicate the material to us. It was a positive experience. I will return for future training. The way the training impacted my goals is that I am a dentist with experience in IT and I am in the process of starting a Network and IT Consulting Company in Health Care.

B. S.

A+ and Network+ Combo Boot Camp

Good morning, the instructor is absolutely the best instructor that I have ever had the pleasure of meeting.

SKW

A+ and Network+ Combo Boot Camp

The instructor provided information that directly correlated to the exam material. He took interest in the subject and was very well informed.

SP

A+ and Network+ Combo Boot Camp

I took my A+ Core Hardware exam on [Date] and passed on my first try. . . . [Instructor] as an instructor has been very helpful and readily available day or night through e-mail. If it were not for his help and undivided attention to my questions, I don't think I would have passed. . . . Thanks again [Instructor] and NetCom, job well done!

PB

Network+ Certification

My overall expectations were exceeded while at NetCom. The instructor was a very knowledgeable person and he gave real world examples and was able to put it in a different perspective because he didn't just read straight from the book.

DD

Network+ Certification

Hi [instructor], my name is Chanan. I was one of your A+ students at NetCom. I want to thank you for imparting your wisdom and knowledge to all of us in the class and for making the classes very enjoyable. It was a very long time since I have been in a classroom and I thought that I might not fit in, however with your style of teaching you made everything seem so simple and you made learning fun! Again I want to thank you for your invaluable assistance in helping me pass the exams. I also plan to do the Network+ and i-Net+ programs.

CB

Security+ Certification

CWNP

The classes were able to build my level/knowledge of wireless communication as well as my confidence in dealing with wireless systems. When I got here I knew nothing, but now I have the confidence and knowledge I need to work with the wireless technology. I enjoyed doing the labs-real good hands on experience. The instructor certainly knew what he was doing; I was able to follow along clearly without difficulty.

JA

CWNA: Certified Wireless Network Administrator

The class met all our expectations! The material was perfect and very efficiently delivered by our instructor. He was able to adapt and give us scenarios as to how this course would benefit us in our environment. What made his delivery even more impressive was his vast experience teaching a highly diverse group like ours.

He did a great job and the staff at NetCom Information Technology coordinated very efficiently with us ensuring each step and area was taken care of. I am very impressed with the level of "follow-up" each staff provided. We will certainly use NetCom Information Technology for any future needs and recommend you to anyone that we find that may need this type training.

Client

CWNA: Certified Wireless Network Administrator

Everything was well organized, the instructor was very good. He certainly knew what he was about and delivered his material in a way that we could all understand. The overall training experience was a worthwhile one that will certainly help me on the job.

JA

CWNA: Certified Wireless Network Administrator

EC-Council

I would like to thank NetCom for hosting CEH/CHFI boot camp and for having such a wonderful staff that provided a superb service during a week of [Date].

I would like to recognize especially the instructor, for a fun and interesting week of training. In addition, I would like to acknowledge [concierge] for an outstanding food service with a smile and always ready to accommodate.

It was a great experience attending your boot camp and I am looking forward to the next classes in the future.

YV

CEH and CHFI Combo Boot Camp

Hi!

I got the job! I am now the Technology Assistant! Thank you very much for the reference and also for being a great teacher! My first day and I am already using the skills from the A+ and N+ classes!

Thank you!

JA

Certified Ethical Hacker (CEH)

Computer Hacking Forensic Investigator (CHFI)

NetCom is very accessible, convenient and has great facilities. The instructor is very knowledgeable; I would definitely take more classes with him.

SJ

VENDOR NEUTRAL

Hi,

Just a quick note to say that I thought [the instructor] did a truly exceptional job. I learned just about as much as my mind could take over that week. Now I'm ready to get coding.

I enjoyed [the instructors] teaching style and hope to channel [the instructor] in my upcoming trainings and sections.

Thanks,

PA

XML

I was pleasantly surprised by the amount of knowledge I gained at my C++ class; I really enjoyed it. My instructor was very knowledgeable and always willing to assist on any issue. I will definitely recommend NetCom to any of my co-workers. My overall experience was very satisfactory.
