Microsoft certifications represent a rich and varied spectrum of job roles and responsibilities. And, earning a specific credential provides objective validation of the ability to successfully perform critical IT functions. Embraced by industry professionals worldwide, Microsoft certification remains one of the most effective ways to reach long-term career goals, and it is a surefire way for companies to develop and retain valuable IT staff.

NetCom Technical Training Options

Our most comprehensive learning format, instructor led training, provides students with hands-on learning environment to learn the products and their nuances, match job role requirements and prepare for Microsoft® certification exams. From in-class demonstrations to hands-on-labs, NetCom instructor led training provides a dynamic learning environment.

- MCTS: SQL Server 2005
- MCITP: Database Administrator (SQL Server 2005)
- MCITP: Database Developer (SQL Server 2005)
- MCTS and MCITP: SQL Server 2005 – Business Intelligence Developer
- MCTS: Deploying and Maintaining Vista Client & Office System 2007 Desktops

- MCTS: Windows Vista Configuration

Expert-led Training

NetCom instructors are highly-skilled Microsoft Certified Trainers who possess a valuable combination of real-world experience and product expertise. We provide our instructors continuous venues for training to keep their skills current and relevant for our clients.

Hands-on labs

Interactive, small-size classes provide the individual attention needed to excel, along with the exclusive access to personal workstations, ergonomic chairs and newest equipment at our state of the art facilities.

Certified Curriculum

Quality curriculum is a top priority for NetCom. The authorized Microsoft® courseware, included with your class, brings practical industry examples into the classroom to enhance your overall learning experience.

Custom training

If your organization has specific training needs, we can customize a class just for you. We will work with you to understand exactly what you need to optimize your training investment.

Software Assurance Training Vouchers

With the Software Assurance training voucher benefit you can realize greater efficiency through instructor-led training at NetCom. You and your team can enroll in any of NetCom's extensive Ready to Run Schedules of classes spanning the entire suite of Microsoft technologies. Get your team up to speed on the latest Microsoft operating systems, enterprise-ready applications and software development tools with training from the Technology Training Leader. To learn more about the program, please call us at (212) 629-7265

Testimonial

"I wanted to thank NetCom for the great training service you provided, I was really happy with the whole learning environment. K.P. is a great instructor; he has a lot of experience and kept the class focused with his enthusiasm about the subject. He taught just the right of detail and applied real world sample solutions.

Thanks again for all your help with our training needs."
