

Get Authorized Training with the Technical Training Leader

Stand out from the crowd and demonstrate your project management skills with a globally recognized credential. NetCom Information Technology is proud to partner with Project Management Institute in providing training and certification testing for all PMI professional designations.

With over 200,000 members in nearly 150 countries, Project Management Institute (PMI®) is the global advocacy organization for the project management profession. PMI is actively engaged in setting professional standards, conducting research and providing access to a wealth of information and resources. NetCom offers comprehensive training options to advance your career in project management and achieve professional excellence.

NetCom Technical Training Options

Our most comprehensive learning format, instructor led training, provides students with hands-on experience to match job role requirements and to prepare students for PMI Certification exams. NetCom instructor led training provides a dynamic learning environment with interactive learning environment.

Expert-led Training

Netcom technical trainers are highly-skilled professionals who possess a valuable combination of real-world experience and product expertise. We provide our instructors continuous venues for training to keep their skills current and relevant for our clients. Our training department provides individually approved instructors for teaching at NetCom. Hands-on classes and labs

Interactive classes

Small, interactive classes provide the individual attention needed to excel, along with exclusive access to personal workstations, ergonomic chairs and newest equipment at the state of the art facilities. NetCom team is committed to providing individuals in the field of project management with the best possible learning opportunities that meet their schedules, interests and goals.

Certified Curriculum

Quality curriculum is a top priority for NetCom. Students will learn the PMI Knowledge Areas, Processes and global project management best practices. The course is highly interactive and includes lectures and practice tests. The main focus is mastering PMI core concepts and techniques for passing the PMP Exam.

Custom training

If your organization has specific training needs, we can customize a class just for you. We will work with you to address the skills gap and develop a unique training program to optimize your investment. Real world courses

Real world courses

We help you learn real-world examples and project management applications to increase your job performance, productivity and marketability. PMI courses at NetCom enable you:

- To apply project management best practices immediately upon graduation from the class
- To develop leadership, negotiation, communication, and conflict resolution skills
- To gain knowledge necessary for taking the PMP® Exam

Testing Information

NetCom is an authorized testing center for Sylvan Prometric and VUE. You can take the tests on-site. To register for a test, please call us at 1-888-563-8266.
